

# iVoice

In under a decade, Athena TECHNOLOGIES® has become one of the best reviewed speaker brands in the world. Athena products represent an enormous value when compared to their competitors.

Building on its reputation of excellence, Athena TECHNOLOGIES® is proud to introduce the iVoice iPod sound dock. This innovative sound dock was designed from the ground up to perform to real world expectations. This means it plays loud, sounds spectacular, and will perform that way for years.

The iVoice is a wall-mountable sound dock that offers a video output to hook up an external display device, an auxiliary input for most MP3 players or a computer. This ingenious iPod sound dock lets you charge and operate your iPod simultaneously, and even offers the flexibility of a wireless remote control. The iVoice features a USB interface allowing you to retain all the functionality when using iTunes without having to remove your iPod from the dock.

Unlike other systems, the iVoice has no cumbersome power adapter so you'll be able to enjoy its good looks. The clean angled design and high gloss black cabinet will complement your décor while the crystal clear direct radiating digital audio will simply amaze you.

Like all Athena TECHNOLOGIES® products, the iVoice plays loud and clear while offering exceptional value.
