Frequently Asked Question - FAQ

- **To place a call** from the phone (or the CommPilot CallManager or the Microsoft Outlook Assistant), always start with "0" then the number to dial with the prefix (e.g. **002** 722 12 34). The international format is also accepted instead of the "0" (e.g. **+32** 2 722 12 34). This only applies to calls outside your group number range and without use of short numbering.
- **Placing a conference call from the phone**, when terminating the call, the other two parties stay in communication.
- **Placing a conference call from the CommPilot CallManager or the Microsoft Outlook Assistant**, when terminating the call, the other two parties do not stay in communication.
- Access the **web management portal** to configure your features via <https://81.245.3.244> or <https://81.245.3.245>. These addresses are only accessible from an Explore VPN or teleworking connection.
