

BodyCraft

F660 Hip Sled

Your leg muscles are the strongest and toughest muscles in your body. We have built the Body-Craft F660 Hip Sled with that in mind. From the heavy gauge steel, to the industrial grade linear bearings, this machine is built to withstand the toughest workouts – for a lifetime!

Extra removable pads allow for Donkey squat by pressing with lower lumbar. This eliminates the spinal compression associated with heavy weights on your shoulders. Another unique exercise provided is a Donkey Calf, for complete calf development.

Fully adjustable foot plate / back pad.

Adjustable shoulder pads allow for a wide range of user heights. This also allows us to make the machine smaller than most.

Fully adjustable foot plate for any desired angle. Foot plate also folds out of the way for Hack Squats.

Industrial grade linear bearings! Plastic wheels tend to flatten over time. Linear bearings never flatten, or wear out, ensuring smooth consistent performance for as long as you own the machine.

- 1000 pound weight capacity!
- Four different exercises provided!
 - Leg Press
 - Hack squats with weight on shoulders
 - Donkey squats with weight on lumbar
 - Calf raises
- Space saving design!

LIFETIME WARRANTY

Since it is built to last a lifetime, every part of the BodyCraft F660 is guaranteed for as long as you own it. We will replace or repair any defect. Warranty applies only to the original owner and for in-home use.
