Breville recommends safety first

We at Breville are very safety conscious. We design and manufacture consumer products with the safety of you, our valued customer foremost in mind. In addition we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions :

Important safeguards for your Breville Avance Meal Maker 3

- Carefully read all instructions and save for future reference.
- Remove any packaging material and promotional labels before using the Avance Meal Maker 3 for the first time.
- Do not place the Avance Meal Maker 3 near the edge of a bench or table during operation. Ensure the surface is level, clean and free of water, etc.
- Do not place the Avance Meal Maker 3 on or near a hot gas or electric burner, or where it could touch a heated oven. Use the Avance Meal Maker 3 well away from walls.
- Do not use on metal surfaces, for example, a sink drain board.
- Always ensure the Avance Meal Maker 3 is properly assembled before connecting to the power outlet and operating.
- The appliance is not intended to be operated by means of an external timer or separate remote control system.
- Do not touch hot surfaces. Allow the Avance Meal Maker 3 to cool completely before moving or cleaning any parts.
- Always switch the appliance to 'Off', switch the power off at the power outlet and remove the plug when the appliance is not being used and before cleaning and storing.
- Keep the appliance and accessories clean. Follow the cleaning instructions provided in this book.

Special safety instructions

- Use handles to move the Avance Meal Maker 3 and pot holders or oven mitts to remove the removable cooking bowl.
- Never plug in or switch on the Avance Meal Maker 3 without having the removable crockery bowl placed inside the stainless steel housing.
- Do not place food or liquid into stainless steel housing. Only the removable crockery bowl is designed to contain food or liquid.
- Lift and remove the glass lid carefully and angled away for yourself to avoid scalding from escaping steam. Do not allow water from the lid to drip into the stainless steel housing, only into the removable crockery bowl.
- Ensure the removable crockery bowl is at least $\frac{1}{2}$ to $\frac{3}{4}$ full of food and/or liquid before switching the appliance on.
- The removable crockery bowl is not suitable for storing food in the freezer.
- Avoid sudden temperature changes. Do not place frozen or very cold foods into the removable crockery bowl when it is hot.
- Do not use a damaged or cracked removable crockery bowl. Replace before using.
- After use, ensure that the temperature control dial is set to the OFF position.
- Allow all parts to cool before disassembling for cleaning.

Important safeguards for all electrical appliances

- Unwind the cord before use.
- To protect against electric shock, do not immerse cord, plug or appliance in water or any other liquid.
- Do not let the cord hang over the edge of a bench or table, touch hot surfaces or become knotted.
- Young children should be supervised to ensure they do not play with the appliance.
- The appliance is for household use only. Do not use this appliance for anything other than its intended use. Do not use in moving vehicles or boats. Do not use outdoors.
- It is recommended to inspect the appliance regularly. Do not use the appliance if the power supply cord, plug or appliance becomes damaged in any way. Return the entire appliance to the nearest authorized Breville Service Centre for examination and/or repair.
- Any maintenance other than cleaning should be performed at an authorized Breville Service Centre.
- The installation of a residual current device (safety switch) is recommended to provide additional safety protection when using electrical appliances. It is advisable that a safety switch with a rated residual operating current not exceeding 30mA be installed in the electrical circuit supplying the appliance. See your electrician for professional advice.

Before first use

Before first use, remove all packaging material and promotional labels and wash the removable crockery bowl and glass lid in hot, soapy water, rinse and dry thoroughly.

Operating instructions

1. Before placing the removable crockery bowl in the stainless steel housing, ensure the exterior of the bowl is clean. This will ensure proper contact with the inner cooking surface.
2. Place the prepared food into the removable crockery bowl, ensuring denser foods are spread evenly across the bottom of the bowl and not heaped to one side. Ensure the food and/or liquid fills at least $\frac{1}{2}$ to $\frac{3}{4}$ of the removable crockery bowl. Place the glass lid into position.
3. With the temperature control dial turned to the Off position, plug the Avance Meal Maker 3 into a 230/240V power outlet and switch the power on at the power outlet.
4. Select the temperature control dial to the desired setting, or as recommended in the recipe section.
5. When cooking is complete, turn the temperature control dial to the Off position, switch off at the power outlet and then unplug.
6. Allow the Avance Meal Maker 3 to cool completely before cleaning and storing.

Important

- Always use the Avance Meal Maker 3 on a dry, level surface.
- Never operate without food and liquid in the removable crockery bowl.
- Never operate without the removable crockery bowl positioned in the stainless steel housing.
- Always have the glass lid firmly in position on the removable crockery bowl throughout the operation of the appliance unless where stated in a recipe to have it removed.
- Always use dry pot holders or oven mitts when removing the removable crockery bowl when hot.
- Do not place the removable crockery bowl when hot on any surface that may be affected by heat.

ALWAYS LIFT AND REMOVE THE GLASS LID CAREFULLY AND ANGLED AWAY FROM YOURSELF TO AVOID SCALDING FROM ESCAPING STEAM.

Keep Warm setting

The Keep Warm setting is used to keep cooked foods at serving temperature. It is not a cooking setting and should only be used after first cooking on the Low or High setting. It is not recommended to keep food on the Keep Warm setting for more than 4 hours.

Low setting

The Low setting gently simmers food for an extended period of time without overcooking or burning. No stirring is required when using this setting.

High setting

The High setting is used when cooking dried beans or pulses and will cook food in half the time required for the Low setting. Some foods may boil when cooked on the High setting, so it may be necessary to add extra liquid. This will depend on the recipe and the amount of time in which it is cooked. Occasional stirring of stews and casseroles will improve the flavour distribution.

In years gone by, food cooked in large pots and allowed to simmer for hours was full of flavour, moist and tender. The Breville Avance Meal Maker 3 is designed to produce these same results, whilst leaving you the time to do other things, making it perfect for today's busy lifestyles.

Here is a guide to help simplify the process of slow cooking, allowing you to obtain maximum satisfaction from your Avance Meal Maker 3:

It's all in the timing

Always allow sufficient time for the food to cook. It is almost impossible to overcook in the Avance Meal Maker 3 particularly when using the Low setting.

Most of the recipes contained within this book can be cooked on the High or Low settings, however the cooking times will vary accordingly. Each recipe will give specific instructions indicating the appropriate settings and suggested cooking times.

Ensure the food and/or liquid in the recipes fills at least $\frac{1}{2}$ to $\frac{3}{4}$ of the removable crockery bowl.

High humidity, altitude, cold tap water and ingredients and minor fluctuations may slightly affect the cooking times in the Avance Meal Maker 3

Note

Adapting cooking times

Your favourite traditional recipes can be adapted easily by halving the amount of liquid and increasing the cooking time considerably. The following is a guide to adjusting your favourite recipes:

Traditional recipe time	Meal Maker recipe time
15-30 minutes	4-6 hours on low setting
60 minutes	6-8 hours on low setting
1-3 hours	8-12 hours on low setting

These times are approximate. Times can vary depending on ingredients and quantities in recipes.

Note

Adapting liquid amounts

When food is cooking in your Avance Meal Maker 3, most moisture is retained. To allow for this when using traditional recipes it is advisable to halve the liquid content.

However, after cooking if the liquid quantity is excessive, remove the lid and operate the Avance Meal Maker 3 on the High setting for 30-45 minutes or until the liquid reduces by the desired amount. Alternatively, the liquid can be thickened by adding a mixture of cornflour and water.

Stirring the food

Little or no stirring is required when using the Low setting placed in the centre of the removable crockery bowl. However, stirring the food when using the High setting ensures even flavour distribution.

Preparing meat and poultry

Select the leanest cuts when purchasing meat. Trim the meat or poultry of any visible fat. If possible, purchase chicken portions without the skin. Otherwise, the slow cooking process will result in the fat melting and creating extra liquid.

Whole chickens may release a large amount of liquid and fat when using the slow cooking process.

For casserole-type recipes, cut the meat into cubes, approximately 2.5cm to 3cm. Slow cooking allows less tender cuts of meat to be used.

Suitable meat cuts for slow cooking	
Beef	Beef chuck, skirt, round steak, boneless shin (gravy) beef, bone-in shin (Osso Bucco)
Lamb	Lamb shanks, drumsticks (frenched shanks), neck chops, best neck chops, boned out forequarter or shoulder
Veal	Diced leg, shoulder/forequarter chops and steaks, neck chops, knuckle (Osso Bucco)
Pork	Leg steaks, diced belly, diced shoulder, boneless loin chops

Browning before slow cooking

Pre-browning meat and poultry, prior to slow cooking, seals in the moisture, intensifies the flavour and provides more tender results, whilst producing richer flavours in other food, such as onions, capsicums and leeks. Pre-browning may take a little extra time, and whilst not strictly necessary, the rewards are evident in the end results. Use a non-stick pan to reduce the amount of oil required.

Roasting

Roasting meats in the Avance Meal Maker 3 creates tender, flavoursome results that are easy to slice. The long, slow, covered cooking process breaks down and softens the connective and muscle tissue within the meat. Cheaper cuts of meat can be used to provide perfect results cooked by this method. Meat will not brown during the roasting process, so for browner results seal in a frypan before roasting. The addition of liquid is not required for roasting. Elevate the meat to be roasted on an inverted, heatproof saucer or plate placed in the centre of the removable crockery bowl. This will assist in keeping the surface of the meat dry and free from any fat released throughout the cooking process.

Suitable cuts for roasting	
Beef	Blade, rump, rib roast, sirloin, fresh silverside, topside.
Lamb	Leg, mid loin, rack, crown roast, shank, shoulder, mini roasts.
Veal	Leg, loin, rack, shoulder/forequarter.
Pork	Loin, neck, leg, (remove skin and fat), racks.

Pot roasting

The addition of liquid is required for pot roasting. Place sufficient liquid into the removable crockery bowl to cover up to a third of the meat. Meat will not brown during the pot roasting process. For browner results, seal in a frypan before pot roasting.

Suitable cuts for pot roasting	
Beef	Beef topside, blade, silverside roasts, rolled brisket.
Lamb	Forequarter, shank, shoulder.
Veal	Shoulder/forequarter.
Pork	Loin, neck.

Preparing vegetables

Vegetables should be cut into small even-sized pieces to ensure more even cooking. Frozen vegetables must be thawed before adding to other foods cooking in the Avance Meal Maker 3.

When cooking vegetables and meat together in the Avance Meal Maker 3, the vegetables can cook at a slower rate than the meat. To gain the best results, position the vegetables on the base and sides of the Avance Meal Maker 3 and place the meat on top.

Preparing dried beans and pulses

If time permits, overnight soaking of dried beans and pulses is preferable. After soaking, drain and place in the removable crockery bowl and cover with sufficient water to reach double their volume. Cook beans on the High setting for 2-4 hours or until tender. Pre-soaked beans and pulses will cook a little faster.

- Always thaw frozen meat and poultry before cooking.
- Trim all visible fat from meat or poultry.
- Meat and poultry require at least 6-7 hours of cooking on Low setting.
- Ensure that the food or liquid to be cooked fills at least $\frac{1}{2}$ to $\frac{3}{4}$ or more of the removable crockery bowl.
- On completion of cooking, if there is too much liquid, remove the lid, turn the temperature control dial to the High setting and cook for 35-40 minutes until the liquid reduces.

Do's

- Do ensure the removable crockery bowl is at room temperature when placing into the stainless steel housing prior to cooking.
- Do avoid extreme temperature changes to the removable crockery bowl and glass lid. Handle the removable crockery bowl and glass lid with care.
- Do use dry oven mitts when lifting the removable crockery bowl containing hot liquids.
- Do place the removable crockery bowl onto a heat proof placemat when serving from the removable crockery bowl at the table.

Don'ts

- Do not place removable crockery bowl or glass lid into or under cold water while still hot.
- Do not use the removable crockery bowl or glass lid if chipped or cracked.
- Do not operate the Avance Meal Maker 3 without the removable crockery bowl in position.
- Do not place a hot removable crockery bowl onto a wet surface.
- Do not cook with frozen meats or poultry.

Never

- Place water or other liquids into the stainless steel housing of the Avance Meal Maker 3.
- Immerse the stainless steel housing, power cord or plug of the Avance Meal Maker 3 in water.
- Touch hot surfaces with bare hands.

- Before cleaning switch the temperature control dial to Off, switch off the Avance Meal Maker 3 at the power outlet and then unplug.
- Always allow the Avance Meal Maker 3 to cool before cleaning.
- To remove stubborn, cooked-on foods in the removable crockery bowl, soften by filling with warm, soapy water and allow to soak for 20-30 minutes. Remove by lightly scrubbing with a soft nylon kitchen brush.
- The removable crockery bowl and glass lid can be washed in hot, soapy water using a mild household detergent. Rinse and dry thoroughly.
- Do not use abrasive cleaners, steel wool, or metal scouring pads as these can damage the surfaces.
- The removable crockery bowl and glass lid are dishwasher safe, however care should be taken not to chip or crack the crockery bowl or lid.
- The stainless steel housing can be wiped over with a soft, damp cloth and then dried thoroughly.

Storage

Ensure the Avance Meal Maker 3 is switched off, cooled and cleaned before storing. Store upright with removable crockery bowl and the lid in position. Do not store anything on top.

ENSURE REMOVABLE CROCKERY BOWL IS CORRECTLY POSITIONED IN THE STAINLESS STEEL HOUSING BEFORE YOU COMMENCE COOKING.

DO NOT IMMERSE STAINLESS STEEL HOUSING, POWER CORD OR PLUG IN WATER OR ANY OTHER LIQUID AS THIS MAY CAUSE ELECTROCUTION.
