Quick Guide

MPRINT

MW-140BT
Mobile Printer
LN9808001Ⓐ

||||||||||||| (barcode)

● Before using this printer, be sure to read this User's Guide.

1) What is Bluetooth?
Bluetooth is a type of short-range wireless technology that provides wireless connectivity to users of computers and PDAs equipped with Bluetooth.

2) Precautions for using Bluetooth
Wireless connections are used in a wide range of fields. Therefore, in order to prevent malfunctions with the following, Bluetooth should be turned off.
● Hospitals
● Aircraft
● Gasoline/Petrol stations
● Fire alarms

3) For better transmission
Bluetooth connectivity varies greatly according to its operating environment.
If a good connection cannot be achieved, try connecting again.
Connections are difficult to achieve in the following locations.
● Near electronic equipment
● Near broadcasting stations or wireless base stations
● Near wireless LAN (IEEE802.11)

4) Other features of Bluetooth technology
● Equipment using Bluetooth technology may require a few seconds until the Bluetooth function can be used after it is turned on. This length of time differs depending on the equipment. (This unit requires a maximum of 8 seconds.)

Manual structure
A User's Guide and a Software Guide are provided on the CD-ROM included with this printer.
User's Guide
The User's Guide provides precautions for using this printer, details on the printer's setup.
